which
summery space
is calling your name?

Yes, you can turn your patio into a staycation. Pick a favorite look!

[outdoor style]

are you california chill?

A Cali-casual patio starts with a zen focal point. This one has a dreamy water garden, with Adirondack chairs—so hip in black!—grouped irresistibly around it. Accessories with fun geometric patterns and bright colors also bring a fab West Coast feel. Garden stools come in handy as side tables, footrests, and even extra seating.
